Forecast for Tuesday 14 Feb 2023

Weather: Some clear spells overnight, perhaps some patchy cloud over the Angus Hills. A dry bright morning with some sunshine for most but some patchy cloud in the south. The cloud becoming more extensive by the afternoon, perhaps with some patchy rain or light showers though probably remaining bright towards Bennachie. Cloud lifting and breaking during the evening.

Chance of cloud-free hill tops above 800m: 75% until late morning falling 20% for the afternoon, gradually improving 60% as the evening goes on.

Low Cloud and visibility: Patchy cloud at 500-700m on Angus Hills at first with small amounts elsewhere, becoming broken to overcast bases 500-800m, except in good shelter, with moderate visibility below cloud in mist or patchy rain. The cloud then becoming more broken and lifting to 900m or above in the evening with good visibility outside the cloud.

Met Office Aberdeen Meteorologist's View
Nothing additional to add.

Forecast for Wednesday 15 Feb 2023
Weather: Clear and dry start but cloud and rain will arrive from the west during the morning, this falling as snow initially above 1000m but dropping to 700m. It will then brighten up during the afternoon to bring some sunny intervals, though with a few showers following later these again of snow above about 700m.

Maximum wind: Southerly 50 gusts 70mph in early hours becoming southwesterly 30 gusts 40mph in the morning.

Chance of cloud-free hill tops above 800m: 10% rising 75% during the afternoon.

Low Cloud and visibility: Extensive cloud at 450-750m in morning and early afternoon with poor visibility in rain, snow and mist, becoming broken or well broken and lifting 750-900m, visibility then mainly good away from the cloud, but briefly moderate to poor as any showers pass through.

Temperature: **Glens:** Plus 7 Celsius falling to 5 Celsius
At 800m: Plus 4 Celsius falling to Minus 1 Celsius
Freezing level: Above summits falling 750m during the morning.
